Spectra DF-500 Part B

DECONTAMINANT – DISINFECTANT – DEODORIZER – FUNGICIDE – MILDEWSTAT - VIRUCIDE

Spectra DF-500 Part B-Active Ingredient:
 Hydrogen Peroxide 7.9%
 Inert Ingredients 92.1%
 Total 100.0%

Danger
KEEP OUT OF REACH OF CHILDREN

First Aid

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for further treatment advice.
 IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.
 IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
 IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.
 NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Danger: Corrosive. Causes irreversible eye damage. Causes skin irritation. Harmful if inhaled. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wear protective eyewear such as goggles, face shield or safety glasses. Wear chemical resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

Spectra DF-500 Part B

DIRECTIONS FOR USE – It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is designed specifically as a general cleaner and disinfectant for use in homes, hospitals, and commercial facilities. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces such as floors, walls, metal surfaces, stainless steel, porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, cabinets and walls of swimming pools. May be used in the kitchen on non-food contact surfaces. If used on food contact surfaces, rinse with potable water prior to food contact. In addition, this product deodorizes areas that are hard to keep fresh smelling including garbage cans, basements, restrooms and areas prone to odors.

PRE-CLEANING – Prior to use on surfaces, remove gross filth, spray the mixture (Part A and Part B) onto the surface and allow to penetrate (about 2 minutes), and then clean thoroughly.

MODEC DECON FORMULA USE INSTRUCTIONS – Spectra DF-500 is a binary (two-part) system. Part A is a surfactant formulation; Part B is a hydrogen peroxide based formulation. Thoroughly mix EQUAL VOLUMES of Part A and Part B. Apply the solution as a spray onto surfaces as directed below. Allow the product to remain on the surface for 10 minutes. The mixed solution has an efficacious pot life of 8 hours.

DISINFECTION – Follow Pre-Cleaning instructions listed above. To disinfect surfaces, apply the mixture and allow to remain wet with product for 10 minutes. No scrubbing is necessary. The product will not leave grit. The product exhibits disinfectant activity against Staphylococcus aureus, Salmonella enterica, Pseudomonas aeruginosa and Listeria monocytogenes and meets the requirements for hospital use.

VIRUCIDAL ACTIVITY: Follow Pre-Cleaning instructions listed above. To eliminate viruses on hard non-porous surfaces, apply the mixture and allow to remain wet for 10 minutes. This product is virucidal against Influenza A (including H1N1), Influenza Type B and Norovirus (Feline Calicivirus Surrogate).

MOLD and MILDEW CONTROL – This product controls mold and mildew on porous and hard nonporous surfaces. Clean the surface to be treated, then spray with the product, making sure to wet completely. Let the surface air dry but the surface must remain wet for at least 10 minutes. Reapply as necessary.

MADE IN THE USA

Spectra DF-500 Part B

Antibacterial Decontaminant Disinfectant and Cleaner

FUNGISTATIC ACTIVITY – Spectra DF-500 has been demonstrated to be fungistatic on porous and non-porous surfaces. Follow Pre-Cleaning instructions listed above and remove any mold that can be removed by hand. Apply a blended mixture of equal volumes of Spectra DF-500 Part A and Spectra DF-500 Part B to the affected surface until thoroughly wet. Allow surface to remain wet for at least 10 minutes. Let dry.

SPRAYING – This product is a binary system. Mix equal parts of Part A with Part B directly into spraying equipment. Apply mixed product at a rate of 1 ounce to 100 sq. ft. of surface area. Allow surface to air dry or remain wet for at least 30 minutes.

DEODORIZING – Spectra DF-500 is an effective deodorizer when applied to areas affected with Pet odors, Food odors, Putrefying odors or Smoke odors. Always check fabric surfaces for colorfastness when applying Spectra DF-500. Mix equal parts of Spectra DF-500 PART A and Spectra DF-500 PART B and apply to surfaces until they appear wet to eliminate odors. Allow product to air dry or surface to remain wet for at least 10 minutes.

STORAGE & DISPOSAL-Do not contaminate water, food or feed by storage or disposal.
 PESTICIDE STORAGE-Store in a dry place no lower in temperature than 50 F or higher than 120 F.
 CONTAINER DISPOSAL-Nonrefillable container. Do not reuse or refill this container. Wrap container and put in trash.
 PESTICIDE DISPOSAL-Pesticide wastes are acutely hazardous. Triple rinse or pressure rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after flow begins to drip. Repeat this procedure two or more times.
